# ABOUT NOTIO

Notio Group (Pty) Ltd is a multi-disciplinary design and construction practice based in Centurion, Gauteng - which strives to amplify its ethos of user-based design and sustainability principles. “Designing tomorrow’s spaces today,” is our guiding philosophy as craft considerate and functional spaces and forms.

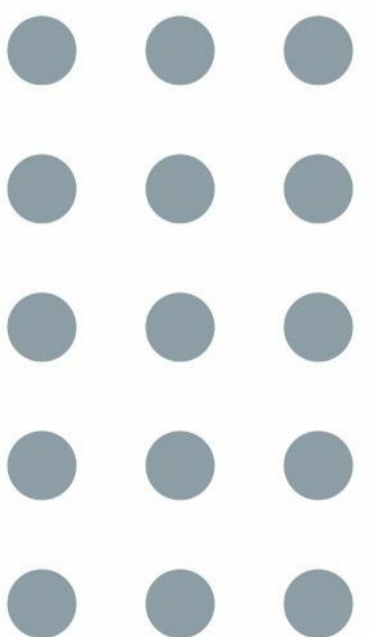

We are able to offer the following services:

- Architectural design and documentation
- Civil and structural engineering
- Land surveying
- Quantity surveying
- Geotechnical engineering
- Building and construction services (NHBRC & CIDB registered)

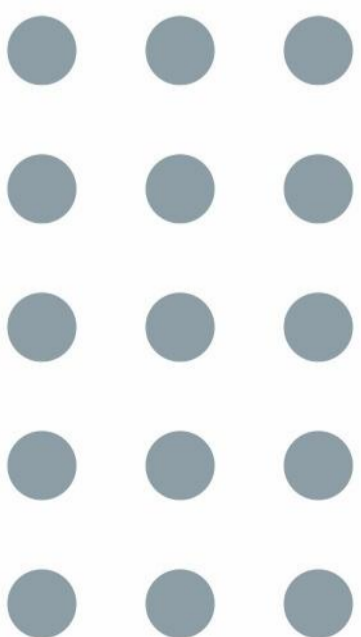

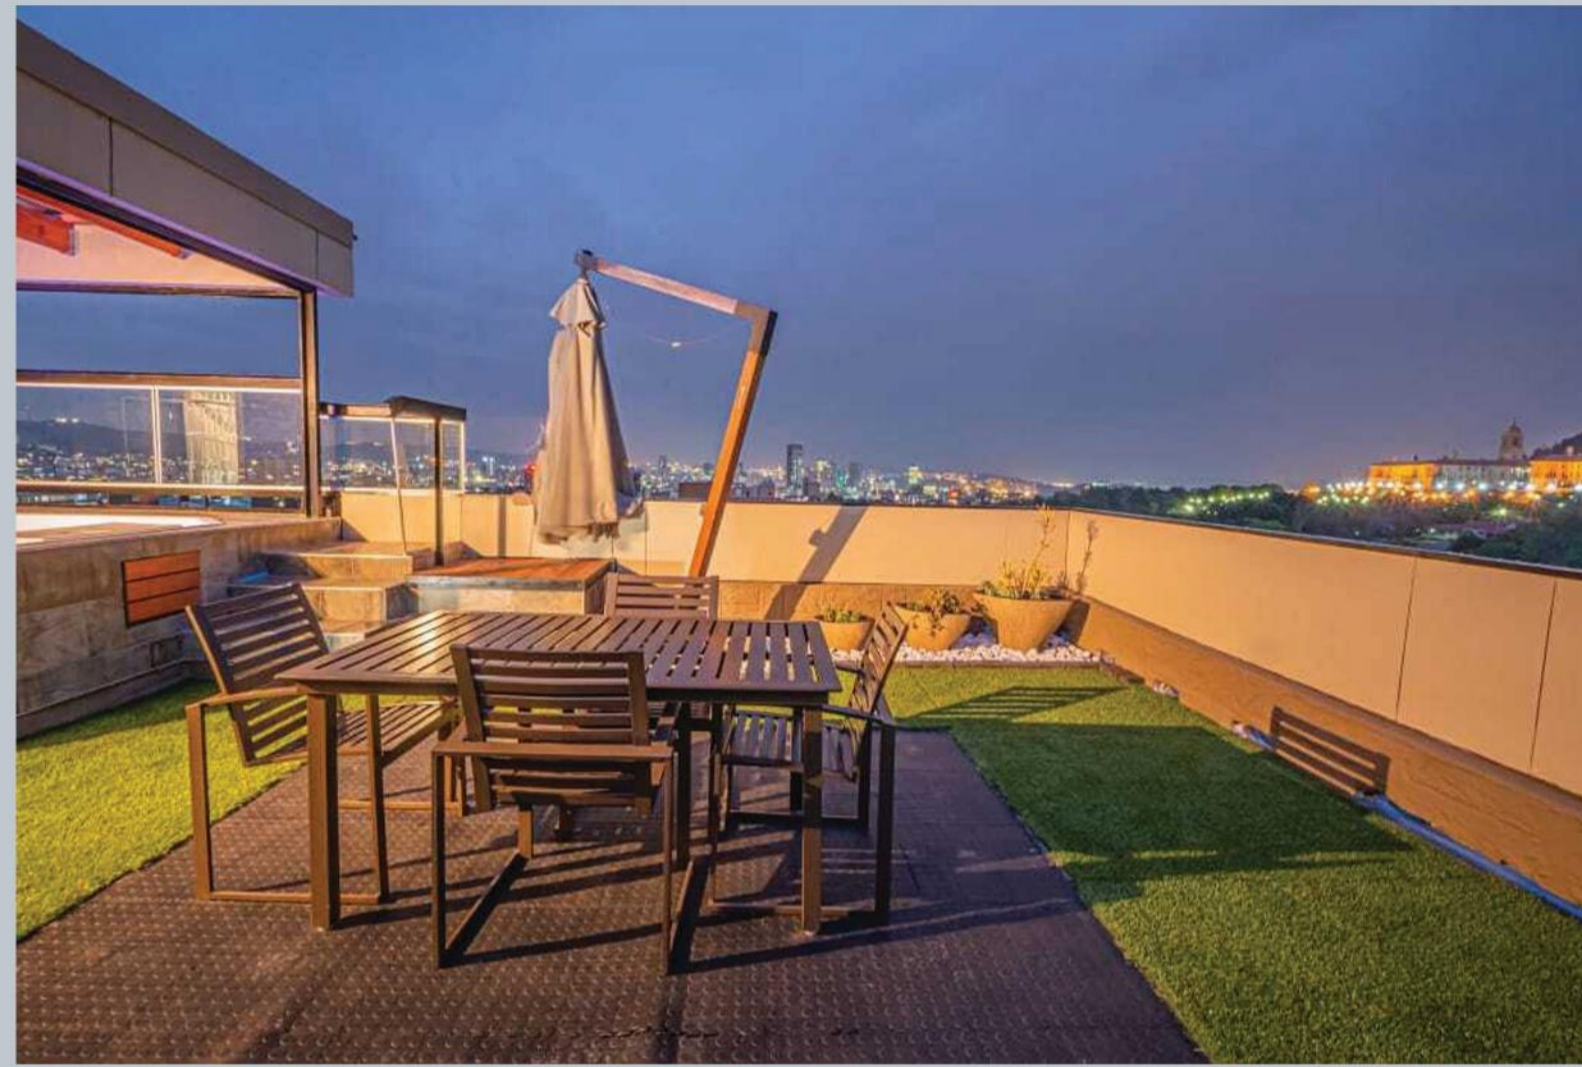

The following selected portfolio of work is intended to communicate our ability to deliver quality spaces and forms as user experience is crucial to our design process and execution.

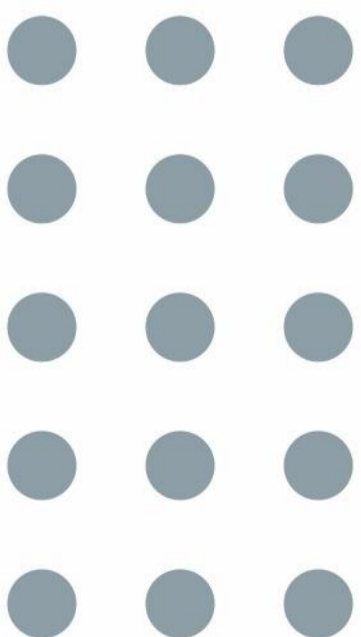

Our niche is focused on medium-to-large scale residential projects yet we do not limit ourselves, as we also take on various projects which align with our ethos and principles. From interior projects to community focused projects, religious and cultural institutions and storage/warehousing - we seek to offer quality designs and construction inspired by the belief that design in the built environment is central to the enhancement of lives and communities.
